Fully Integrated Accounting & UB Solution
Sage Intacct & CUSI

Empowering Utilities with Seamless Integration

- **Streamline Operations**
- **Enhance Financial Clarity**
- **Improve Customer Service**

Integrated Utility Solutions for Enhanced Efficiency

Utilities face unique challenges, from managing complex billing cycles and ensuring regulatory compliance to achieving financial transparency and delivering superior customer service.

CUSI and Sage Intacct have partnered to provide a best-in-class, cloud-based solution that simplifies operations, empowers decision-making, and ensures financial clarity.

Why Choose CUSI + Sage

Best-in-Class Integration

- Combine CUSI's industry-leading utility billing system with the powerful financial management tools of Sage Intacct.

- Seamlessly unify billing, customer, and financial data for a comprehensive view of your operations.

- Protect sensitive data with SOC 2 compliance and advanced security measures.

Automated Workflows

- Eliminate manual data entry by automating the flow of customer billing and payment data into Sage Intacct.

- Simplify audits, reduce closing times, and ensure accurate financial records.

- Streamline billing processes and error reporting for timely, accurate invoicing.

Real-Time Insights for Strategic Decisions

- Gain real-time insights into cash flow, budget variances, accounts receivable, and operational efficiency.

- Make data-driven decisions to support utility growth and optimize economic health.

Key Features of the Combined Solutions
